Announcing the publication of *Dear Society*

Free Press Publications is pleased to announce the publication of its newest original work: *Dear Society* by The Cloudwalker.

Born into a devastated world and raised among the crowd, The Cloudwalker assumes a new identity and begins the unrelenting quest for truth. In this epic journey he discovers dark secrets about aspects of his previous life that he once trusted. He was like you, but truth has changed him for the better. Through the journal of The Cloudwalker, he shares both the traumatic hardships and the eternal beauties of his experiences. Fueled in the beginning by his unsettled thoughts and emotions, he learns how to find peace with everything he has woken up to.

“There are many types of seeds on Earth,” says The Cloudwalker, “This book is one of them. I hope that it grows into an old-growth tree long after I’m gone.”

The Cloudwalker was born in Eastern Ohio, and has lived in that region for most of his life. He is currently a University student and is completing his degree in Middle Childhood Education.

Dear Society by The Cloudwalker, published by Free Press Publications will be available March 20, 2017. The book can be pre-ordered in paperback [directly from Free Press Publications](#), or in Kindle format from [Amazon](#). *Dear Society* will be available from Amazon.com, all major book stores, and [directly from Free Press Publications](#). A limited number of complimentary copies will be made available to the press for review.
